

Lucas Kim

QLD, Australia | [0423 518 990](tel:0423518990) | contact@lucaskim.dev | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

SKILLS

- **Programming Languages:** Python | JavaScript | TypeScript
- **AI/ML:** Machine Learning | Deep Learning | Scikit-learn | Keras | TensorFlow | Pandas | NumPy | Matplotlib | Seaborn | LLM
- **Development:** API | HTML | CSS | React.js | Node.js | Rest APIs | OpenAI API | GitHub | SQL | PostgreSQL
- **Enterprise AI Solutions:** Microsoft Power Platform | AI Prompting | AI Automation

EXPERIENCE

DynamX Institute

Developer Intern

Gold Coast, Australia

Apr 2026 - May 2026

- Built an automated Power Platform environment to replace paper operations for small local library admins.
- Developed a Canvas App for kiosk tablets and a Model Driven App for admins to track inventory and loans.
- Designed Power Automate flows for loan confirmations, due date tracking, and automated reminder emails.
- Built a Power Pages portal allowing members to browse the catalogue and submit loan requests remotely.
- Configured Dataverse as a centralised database to securely manage real time library data and user transactions.

Bionauts

Front-end Developer

Brisbane, Australia

Jun 2025 - Nov 2025

- Built the frontend for nature adventure booking platform using HTML, CSS, JavaScript, Bootstrap, and Node.js.
- Built booking system that lets teachers search for and reserve adventures for their students.
- Added Instagram style story and photo sharing for students to document their adventures.
- Managed project using Monday.com, working through user stories based on client requirements one at a time.

IIFP Pathology

Full-Stack Developer

Brisbane, Australia

Feb 2025 - Jun 2025

- Identified manual reporting inefficiencies and insecure patient data storage in Excel files.
- Built a pathology insight web application using PostgreSQL, Node.js, React, HTML, CSS, and JavaScript.
- Built a tool that automatically generates reports from patient test data.
- Restricted data access to only the assigned practitioner and patient.
- Practitioners could focus on analysis instead of writing reports.

Future Scope

Project Leader

Code Network Hackathon

Aug 2025

- Built an AI-powered personal roadmap generator using the OpenAI API
- Led idea collection and brainstorming and set up the GitHub repository and React environment.
- Assigned roles based on strengths across frontend, backend, AI prompting, and final pitching.
- Built a responsive React interface for goal tracking and roadmap interaction.
- Integrated the OpenAI API to generate personalised and actionable roadmaps.
- Removed non-essential features to meet the two-day deadline and deliver a seamless demo.
- Won 1st place at Code Network Hackathon and was featured in a QUT article.

Fruit Classification Model

Personal Project

Brisbane, Australia

Feb - May 2025

- Built a ResNet CNN model to classify apples, cherries, and tomatoes across 3 target categories.
- Sourced the image dataset from Kaggle and split them 80% train, 20% validation.
- Achieved approximately 90% classification accuracy on tomatoes due to distinct colour and shape features.
- Recorded a ~20% drop in accuracy for apples and cherries compared to the tomato baseline.
- Identified uniform 224x224 pixel resizing as the root cause, which removed key physical size differences between red cherries and red apples.

- Delivered front of house customer service at a restaurant.
- Analysed sales trends and data to recommend menu pricing and high margin item promotions to management.
- Refined the website layout to improve customer navigation and engagement.

EDUCATION

Queensland University of Technology Computer Science CGI (Computer Generated Imagery)	Brisbane, Australia Dec 2025
Korea IT Academy AI & Machine Learning	Online Apr 2026 - Present

ACHIEVEMENTS

• <u>Winner – 1st Place: Code Network Winter Hackathon</u>	Aug 2025
• <u>Microsoft Certified: Power Platform Fundamentals</u>	May 2026
• <u>Microsoft Certified: Azure Data Fundamentals</u>	Feb 2025
• <u>Microsoft Certified: Azure AI Fundamentals</u>	Feb 2025
• Academic Award: Executive Deans' Commendation of Academic Excellence (QUT)	Jun 2024

LANGUAGES

- English (fluent)
- Korean (native)
